Message From The Chair

June 25, 2012

Honourable Margaret Best
Minister of Consumer Services
6th Floor, Mowat Block
900 Bay Street
Toronto, Ontario
M7A 1L2

Dear Minister Best,

I am pleased to present the 2012 Annual Report and Business Plan of the Travel Industry Council of Ontario (TICO). Overall, TICO's performance has met its mandate of maintaining a fair, safe and informed marketplace where consumers can be confident in their travel purchases. Full details with respect to TICO's activities and accomplishments are presented in the body of the report.

As you are aware, given the global nature of the business and increasing consolidation in the industry, there are many risks that the regulator has to take into consideration in trying to ensure that the public is adequately protected. TICO has spent a lot of time over the last year considering those risks and assessing the best ways to manage them in order to ensure consumer protection. In particular, TICO has been focusing on the protection offered by the Compensation Fund. TICO is exploring how protection for consumers could be enhanced and compiling data and information on various options to address areas of concern to support the government's policy development process. Over the next year, TICO will be working with the Ministry of Consumer Services to determine whether changes would be beneficial going forward.

In the interim, the Business Plan is forecasting a minimal increase to Compensation Fund contributions in order to maintain the Fund balance at between \$20 and \$25 million. Six years ago, when the Fund reached \$30 million, the Compensation Fund contribution rates were reduced with the goal of reducing the Fund balance to within the required level. It was anticipated that once the Fund balance was reduced, a rate adjustment would be needed to maintain the Fund at that level.

As part of its efforts to eliminate gaps in consumer protection, TICO also works with other industry stakeholders to promote harmonized standards across the country. As part of the Travellers Protection Initiative (TPI), a group consisting of the Public Interest Advocacy Centre

(PIAC), the Association of Canadian Travel Agencies (ACTA) and Option Consommateurs, TICO provided input to the Canadian Transportation Agency (CTA) on its consultation with respect to the regulation of air travel price advertising. The CTA is developing regulations requiring air carriers to include all fees, charges and taxes in their advertised prices for air services. The intent of the regulations is to ensure greater transparency for Canadians and to allow consumers to easily determine the total price of an air service in order to make an informed choice. TPI has been encouraging the federal government to introduce regulations requiring full disclosure in advertising of airline fares for many years. As you are aware, TICO registrants are subject to price disclosure rules. TICO was happy to participate in the CTA consultation and is looking forward to reviewing the draft regulations once they are released.

Finally, the TICO Board was happy to see the endorsement of the Delegated Administrative Authority (DAA) Model contained in the Drummond Report. We believe the model has worked well in the travel sector and are pleased to see that it is being recognized as an efficient and effective means of delivering regulatory services that is worthy of being expanded to other sectors.

Yours truly,
Travel Industry Council of Ontario

Chief Executive Officer's Report

EXECUTIVE SUMMARY

Despite the gloomy picture painted by the global economy, Ontario's travel industry has held up well over the last year. Gross travel sales through retail travel agencies in the province increased by approximately 8.5% over the prior year and are now approaching the \$10 billion mark. There was even an increase in the number of travel registrants from 2,501 to 2,507 over the last year. This is interesting considering that there has been a gradual decline in the number of registrants over the last ten years.

TICO's financial inspections programme continues to be a priority. TICO's goal is to identify issues in a timely manner to eliminate or minimize risks to consumers when they purchase their travel services. During the year, closures of registered agencies resulting in claims were kept to a manageable level, with the Fund reimbursing consumers a total of \$360,003 for registrant failures and \$75,603 for non-registrant airline and cruise line failures. TICO was also successful in recovering \$65,549 from closures.

As of March 31, 2012, there were 32,371 individuals who had taken one of TICO's Education Standards examinations, which were introduced in 2009. The Education Standards program has helped to improve knowledge of the requirements under the *Travel Industry Act, 2002* ("Act") and Ontario Regulation 26/05 ("Regulation").

Looking forward, TICO has set four Business Plan objectives for the next year. First, TICO is continuing to work with the Ministry of Consumer Services to explore enhancements to the consumer protection provided by the Compensation Fund. As part of its review, TICO will complete an actuarial analysis with respect to the appropriate level of the Compensation Fund. Secondly, TICO is continuing its review of the business model of how travel services are being sold to make sure that consumers are adequately protected. The focus this year will be on the internet and social media. Thirdly, TICO will continue to review the Act and Regulation in partnership with the Ministry to identify opportunities to modernize, improve consumer protection and reduce regulatory burden. Last but not least, TICO wants to get registrants more involved in its Consumer Awareness Campaign.

In 1999, TICO initiated a Consumer Awareness Campaign to make consumers aware of the benefits of dealing with a TICO registered travel agency. We have promoted the campaign each year and conducted Omnibus Surveys to measure the success of our initiatives. Over the years, we have made gains in the overall awareness of TICO and also increased understanding of the roles that it performs. However, we believe that with the assistance of registrants, even more can be accomplished.

On June 25, 2012, TICO will be celebrating its fifteenth anniversary since receiving delegation from the Ontario government to administer the Act. When I look back over that time, I am proud of all that TICO has accomplished as an organization and I am excited about the prospects of what more can be achieved in the years to come.

Yours truly,
Travel Industry Council of Ontario

Michael Pepper
President & C.E.O.

TICO Structure

Organization

The Travel Industry Council of Ontario (TICO) is a not-for-profit corporation financed through fees from its approximately 2,500 travel retail and wholesale registrants. The Ministry of Consumer and Commercial Relations

delegated responsibility for the administration to TICO in June 1997. The *Travel Industry Act, 2002* (the Act) governs Ontario travel retailers and wholesalers and provides for the operation of a travel industry Compensation Fund. The Ministry of Consumer Services is currently responsible for the the Act and Ontario Regulation 26/05 (the Regulation).

Following a regulation change in June 1998, TICO assumed direct responsibility for the Ontario Travel Industry Compensation Fund (the Fund) from the Ontario Travel Industry Compensation Fund Corporation (OTICFC). The OTICFC was subsequently dissolved on August 28, 1998.

Travel Industry Compensation Fund

Background on the Ontario Industry Travel Compensation Fund

In 1975, the Government of Ontario passed the *Travel Industry Act*. This legislation provides the legal basis for the Compensation Fund and ensures that every registered travel business in Ontario participates in the Fund. Section 50 of Part III of the current Regulation (O. Reg. 26/05) enacted pursuant to the *Travel Industry Act, 2002* states: “Every registrant shall participate in the Fund.”

Management of the Compensation Fund

The Regulation relating to the Compensation Fund sets forth in detail the operation and management of the Fund.

Section 52 of Ontario Regulation 26/05 provides that the affairs of the Compensation Fund shall be administered and managed by the TICO Board of Directors.

Section 52(2) of Ontario Regulation 26/05 requires that TICO shall hold all money in the Fund in trust for the benefit of claimants whose claims for compensation the Board of Directors approves in accordance with this Regulation.

Section 73 of Ontario Regulation 26/05 allows the costs of administering the Compensation Fund to be paid from the Fund.

Fund Financing

The Compensation Fund is totally financed by Ontario registrants. The Payment Schedule requires registered travel retailers and registered travel wholesalers to pay a greater of \$25 or 5¢ per \$1,000 of sales, both on a semi-annual self assessment basis. These payments are to be filed with TICO within 90 days after the end of each fiscal half year.

Surplus Funds

The Corporation may invest any funds of the Compensation Fund, which are surplus to the immediate requirements of TICO in property in accordance with the *Trustee Act*.

Claims

The Compensation Fund reimburses customers of registered travel agents for eligible claims arising from the bankruptcy or insolvency of an Ontario registrant or arising from the failure of an end supplier airline or cruise line. The Board of Directors determines whether a claim or a part of one meets the requirements of the Regulation and determines the eligible amount of the claim. Claims must be submitted in writing to the Board within six months after the relevant registrant or end supplier becomes bankrupt or insolvent or ceases to carry on business. The maximum payout for claims arising out of an event is \$5 million in total. The maximum payout per person is \$5,000.

Effective July 1, 2010, claims may be filed against the Compensation Fund to provide the reimbursement of reasonable expenses incurred (transportation, accommodation and meals) to complete a trip where the travel services have not been provided as the result of the closure of a TICO registered travel retailer or a TICO registered travel wholesaler. Provided that the consumer purchased their original travel services from an Ontario registered travel retailer, trip completion claims may be eligible when the consumer's travel services commenced prior to the failure of the TICO registrant and the consumer is in destination and unable to receive the travel services purchased to complete their travel plans. Trip completion claims must be submitted in writing to the Board within three months after the relevant registrant becomes bankrupt or insolvent or ceases to carry on business.

The Director under the *Travel Industry Act, 2002* may direct payment out of the Fund of up to an additional \$2 million where immediate funds and facilities are necessary for the repatriation and accommodation of customers of

registrants who are outside of Ontario. When customers of registrants are preparing for immediate departure and have been placed in circumstances where funds are required to alleviate suffering or to protect the interests of the Fund, the Director may pay out of the Fund an amount sufficient to enable such departure, up to a maximum of \$5,000 per person.

Appeal of Decisions

Claimants are entitled to appeal a decision of the Board of Directors to the Licence Appeal Tribunal. Decisions of the Tribunal may be further appealed to the Divisional Court of Ontario.

Financial Inspections

TICO operates a risk management programme, which includes financial inspections of registrants carried out under the direction and control of the Registrar, *Travel Industry Act, 2002*. The objective of the programme is to identify as early as possible any registrants at financial risk and to work with these registrants to ensure compliance with the Act and Regulation. Through early identification of registrants at financial risk, TICO attempts to minimize potential claims against the Compensation Fund and disruption to consumer travel. The programme consists of an annual review of the financial statements of all registrants, a more frequent review of the financial statements of larger registrants and site inspections. The programme is proactive as TICO visits all new registrants to ensure their understanding of the Act and Regulation and compliance requirements.

Operational Performance Review

Registration

On March 31, 2012, there were a total of 2,507 registrations with TICO (Fig. 1). Of these, 86% (2,147) are retail travel agencies, who sell travel services directly to consumers and 14% (360) are travel wholesalers, who sell travel services through travel retailers.

In 2011/2012, there were a total of 202 terminations (Fig.2). A total of 2,301 registrations were processed under the *Travel Industry Act, 2002*, which included 203 new registrations (Fig. 3) and 2,098 renewals (Fig. 4). Registrations are renewed annually.

Complaint Handling Process

TICO receives numerous telephone and email enquiries on a daily basis including those from consumers, registrants, applicants, government and industry stakeholders. TICO staff provides information with respect to consumer and business complaints, registration processes and acceptable business practice.

TICO provides complaint handling for consumer-to-registrant disputes. After encouraging consumers to pursue all avenues with the registrant, TICO staff will assist with the goal of reaching a mutually acceptable solution. However, TICO does not have the authority to settle a dispute,

Figure 1: Total Registrations under the Act

Figure 3: Total New Applications Processed

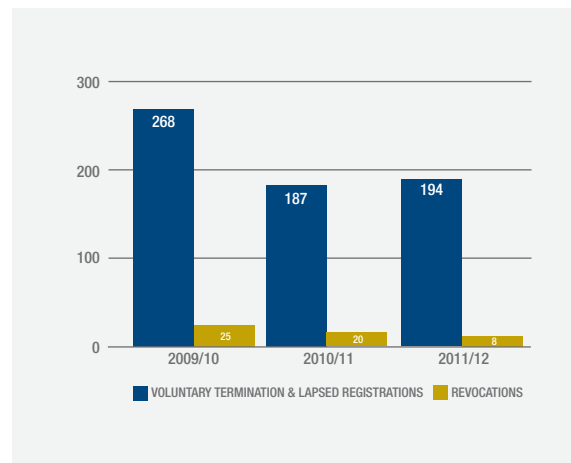

Figure 2: Total Voluntary Termination / Lapsed Registrations vs. Revocations

Figure 4: Total Renewal Applications Processed

or to impose a settlement, and it does not have the authority or mandate to act as an arbitrator in any complaint matter. When a complaint involves allegations of non-compliance with the

Act, the Registrar will undertake the necessary compliance and enforcement activities. If such is the case, this will be dealt with separately from assisting with resolution of the complaint. When

a mutual solution is not reached, complainants are provided with information regarding options to pursue matters.

When TICO receives a complaint it may be resolved in anywhere from a few hours over the telephone or a few weeks to a few months for a formal written complaint. The length of time varies depending on the complexity of the issues, the availability of feedback and documentation required, and the level of cooperation of those involved.

Registrant-to-registrant disputes have not been handled traditionally by the Registrar, unless financial issues or other allegations of non-compliance with the Act are involved.

Complaints Committee

Consumers and registrants with complaints about TICO's activities are invited to contact the Complaints Committee of the Board of Directors.

The Complaints Committee's mandate is to review and resolve, as appropriate, complaints against TICO, which are based on dissatisfaction with the quality and fairness of its services to registrants and consumers. The Committee also makes any recommendations with respect to TICO's complaint handling procedures that may arise from reviews of particular complaints. The Committee is composed of representatives of various stakeholders. During the 2011/2012 fiscal period, there were no complaints received against TICO.

Appeals against the Registrar's administrative decisions may proceed, as appropriate, to the Licence Appeal Tribunal. Complaints may be submitted to TICO by telephone, fax, mail or e-mail.

Complaints

TICO resolved 346 written consumer complaints in 2011/12 compared to 232 in the previous year (Fig. 5). Many of these complaints related to files that were opened in the previous fiscal year. The number of new complaints received during 2011/2012 was 290 compared to 294 in the previous year. In processing these complaints, TICO successfully assisted consumers in obtaining \$82,510 in restitution compared to \$57,205 the previous year. In addition, TICO handled 1,465 telephone complaint inquiries and 544 email complaint inquiries.

Figure 5: Written Complaints Handled

The most frequent types of written complaints received at TICO in 2011/2012 were:

1. Incomplete or incorrect information provided to the consumer by the registrant. (e.g. information regarding the travel product or services being sold.)
2. Invoicing issues. (e.g. not complete with required information or not provided to consumer.)
3. Outstanding refunds.
4. Information / Documentation. Issues related to travelling with passports and other travel documents.
5. Incorrect ticketing/ticketing errors.
6. Cancellation/Flight Delay
7. Price disputes.
8. Disclosure of Terms & Conditions of Reservation
9. Customer service issues.
10. Advertising issues.

Consumer Survey Results – Complaints Process

During the fiscal year 2011/12, TICO distributed consumer surveys to 346 consumers who filed complaints against registrants with TICO, inviting feedback as to their experience with TICO's complaint's process. At the end of March 2012, there were 24 completed surveys returned to TICO.

The results of the 24 completed surveys received are as follows:

When asked to rate their overall satisfaction with TICO's handling of their complaint: 16 consumers advised they were either satisfied or very satisfied, 5 consumers indicated they were dissatisfied and 3 consumers were neutral in their opinion.

When asked to rate their satisfaction with the fairness of the process: 15 consumers advised they were either satisfied or very satisfied, 5 were dissatisfied and 4 consumers were neutral in their opinion.

TICO reviewed the survey results and established that some of the consumers who expressed dissatisfaction had filed a complaint which contained issues that are not covered by the legislation and, therefore, were outside the scope of TICO. As such, TICO was unable to assist them.

In other cases, TICO was able to identify areas of a possible contravention(s) of the Act and/or Regulation on behalf of the registrant(s) involved. These issues were referred to TICO's Compliance Department for further review. As a result, TICO requires registrants to initiate corrective measures in an effort to prevent similar situations from affecting future travellers. However, such referrals are not directed at obtaining compensation for specific complaints. It should be noted that TICO does not have the authority to settle a dispute, or to impose a settlement.

Some consumers expressed dissatisfaction with TICO not having the authority to settle a dispute, or to impose a settlement in complaint matters.

The survey results also indicated that 2 consumers were dissatisfied with the complaint turnaround times, 6 consumers were neutral and 16 consumers were either satisfied or very satisfied. Turn-around times may vary considerably depending on the complexity of the issues involved as well as the responses received from complainants and registrants, which could result in further information being required from suppliers or other third parties.

Financial Inspections

Under the direction of the Registrar, the TICO is responsible for conducting a financial inspection programme. All registrant financial statements are subject to a bench review to ensure compliance with the financial standards required by regulation. The bench review process produces information, which may determine those registrants that should receive financial site inspections. During the fiscal period 2011/2012, TICO completed 1,797 bench reviews (Fig. 6) and completed 501 financial site inspections.

Figure 6: Total Financial Bench Reviews

Figure 7: Financial Site Inspections

Non - Financial Inspections

TICO performed 7 compliance site inspections during the 2011/2012 fiscal year compared to 40 in the prior year. In 2011/2012, a total of 78 warnings for operating without registration were issued compared to 65 in the previous year (Fig.

8) and 108 advertising warnings were issued to registrants and/or individuals who appeared to be carrying on business in contravention of the Act and Regulation compared to 110 in the previous year (Fig. 9). In addition, 123 invoicing warnings (Fig. 10) were issued to registrants who did not provide proper invoices and/or receipts in accordance with the Regulation compared to 65 in the previous year. Invoicing deficiencies

are forwarded to the Compliance Department from consumer complaints, financial inspections and claims. In addition, 1 warning was issued during the fiscal year in relation to meeting the legislated Education Standards, which came into effect on July 1, 2009, compared to 2 in the previous year.

Consumer Awareness Campaign

During the 2011/2012 fiscal year, TICO worked with Larter Advertising on TICO's Consumer Awareness Campaign. The goal was to increase awareness and to ensure that consumers gain a better understanding of what TICO does, how it can assist them and what protection is available in Ontario. The main focus of the campaign messaging was to drive consumers to TICO's website where they would be able to view informative videos and learn about TICO and the consumer protection that is available when they purchase travel services from TICO registered travel agencies.

TICO's Consumer Awareness Campaign included a 30-second television ad, which was aired on the Rogers TV Listing Channel and a 15-second online television ad, which was played as a pre-roll on GlobalTV.com. The Campaign's media strategy also included outdoor advertising with TICO

posters in every GO Station and in GO transit shelters throughout Ontario as well as on the platforms in Union Station. This strategy was also accompanied by a GO Train wrap, which ran on the heaviest travelled route, the Lakeshore line. TICO's Posters promoted TICO's consumer protection message as well as encouraged consumers to go to TICO's website

to enter a "Win Your Dream Trip Contest." TICO's Contest Winner was Mr. Wonryang Kim of Kingston, Ontario, who was presented with a grand prize cheque for \$5,000.

For the first time, TICO's Consumer Awareness Campaign included an online social media campaign to encourage social networking of consumers. The strategy included a presence on Facebook, Twitter and YouTube and an online GO TICO GO! Contest. The contest was used to promote TICO and

to build awareness and a following for TICO on key social media platforms. The contest ran for 8 weeks on Facebook and each week a picture of Tico, our Border Terrier, was posted in a different destination. Followers on TICO's Facebook page were asked to answer the question: Where is Tico this Week? and were encouraged to get other Facebook friends involved. The names of consumers who answered correctly answered the question at the end of each week were placed in a draw for a customized Heys carry-on bag.

The Campaign's internet strategy also included the development of a mobile version of TICO's website as well as pay-per-click advertising to capture consumers on the Internet when searching for travel services. Customized landing pages provided consumers with TICO's consumer awareness message. This initiative resulted in 15,006 clicks through to the website. To extend its consumer awareness message to ethnic communities, TICO's consumer awareness advertisement was placed in several ethnic community newspapers with an editorial column, which were translated into various languages.

Public relations was also a component in the Campaign's strategy. A press conference was held at Union Station with Minister Best, the Minister of Consumer Services, who assisted TICO in promoting its consumer awareness message, which generated media coverage. TICO staff were also at Union Station that day and provided 2,000 commuters with reusable shopping bags bearing the TICO logo and consumer information pamphlets. TICO attended nine consumer trade shows and distributed informational literature.

The Campaign's public relations strategy also extended to all TICO registrants to encourage more registrants to use the Campaign messaging to always book with a TICO registered travel agency and to encourage the use of the collateral materials available for download from TICO's website to allow Ontario registrants to participate in and support the Campaign. Online banner ads were placed on various trade media websites with a link

to a video, which included various industry leaders promoting the benefits to TICO registrants to use the TICO Logo and incorporate TICO's Consumer Awareness Campaign messaging in all their touch points with consumers.

TICO conducted an online omnibus survey to measure the success of the campaign. Awareness of TICO in Ontario dropped slightly to 28% in 2011/12 compared to 30% in the previous year. There was an increase in awareness of TICO in the GTA area to 36% in 2011/2012 compared to 34% in the previous year. Overall, understanding by consumers that TICO assists with complaints against TICO registrants decreased to 48% in 2011/2012 compared to 57% in the previous year. Awareness that TICO provides refunds to consumers who do not receive the travel services for which they paid decreased to 31% (from 37% in the previous year). A total of 71% of respondents identified at least one role correctly compared to 76% in 2011.

In addition, the survey resulted in a slight decrease in the understanding by consumers that they must purchase their travel services from an Ontario registered travel agency to obtain the protection from TICO and the Compensation Fund to 62% from 70% in the previous year.

TICO's goal is to increase the overall results in the upcoming years. A new campaign strategy will be developed to benefit both consumers and registrants and will continue to focus on increasing both consumer and registrant awareness in Ontario.

French Language Services

TICO strives to respond to all inquiries received in the French language, whether oral or written. A comparable level of service will be provided in either language whenever and wherever demand and customer service warrant. TICO staff are able to communicate in several languages and provide both registrants and consumers with a timely, courteous and quality response to all French language enquiries. Correspondence received in French is responded to in French.

FINANCIAL REVIEW

The following financial review is based on the audited financial statements for the Travel Industry Council of Ontario for the year ended March 31, 2012 with comparative figures for March 31, 2011.

Overview

As at March 31, 2012, the combined Net Assets of TICO were \$25,244,414 compared to \$25,847,583 for the year ended March 31, 2011. The decrease in Net Assets was a result of total expenses exceeding revenues by \$603,169 for the year compared to \$853,177 in the prior year. Total revenues increased in 2011/2012 by 10%, while total expenses, including claims have only increased by 1%.

TICO is required to hold all Compensation Fund monies in trust. As of March 31, 2012, the assets held for the Compensation Fund totaled \$24,697,605 compared to \$25,343,409 as of March 31, 2011.

Revenue

Total Revenue for the year ended March 31, 2012 was \$3,464,664 and derived from semi-annual assessments paid by registrants to the Compensation Fund (\$682,229), applications for renewal of registrations (\$1,023,927) and from new applications for registration (\$400,800). A total of \$1,357,708 in investment income was earned during the year.

Semi-Annual Assessments

All registrants are required to pay into the Compensation Fund based on their gross travel sales. The current contribution rate for both retail and wholesale registrants is .05 per \$1,000 of sales. Semi-Annual Assessments were higher in 2012 at \$682,229 compared to \$616,927 in 2011.

	2012	2011
Retail	\$ 498,016	\$ 461,999
Wholesale	<u>184,213</u>	<u>154,928</u>
	<u>\$ 682,229</u>	<u>\$ 616,927</u>

Registration Fees

Revenue from registration fees is derived from two sources, new registration fees and renewal fees. A fee increase was implemented effective July 1, 2011. New registration fees increased from \$2,750 to \$3,000 for a head office and increased from \$750 to \$800 for a branch office and cover a one year period of registration. Renewals are made annually and are based on a registrant's sales volume and range from \$300 to \$1,800 per head office. Prior to the fee increase in July 2011, the renewal fees ranged from \$250 to \$1,500. The renewal fee for a branch office is \$300 (previously \$250). Renewal Fees in 2012 were \$1,023,927 compared to \$828,136 in 2011. The increase is as a result of the fee increase implemented in July 2011. New Registrant fees were \$400,800 in 2011, an increase of 19% compared to \$337,313 in 2011.

Investment Income

Investment income is \$1,357,708 for 2012 compared to \$1,375,229 in 2011.

Expenses

Total expenses increased in 2012 to \$4,067,833 from \$4,010,782 in 2011. The significant variances are as follows:

Claims

Total claims expense for the year ended March 31, 2012 was \$441,321 compared to \$254,944 in 2011. The majority of claims in 2012 relate to

the failures of Atlas Air Travel, Minfare Travel and Panorama Travel and Tours Ltd. Claims expense consists of three components: (1) claims, including trip completion and imminent departure expenses, from registrant failures of \$393,689 and (2) claims from the failures of non-registrant end supplier airlines and cruise lines of \$75,603, and (3) professional fees of \$33,314 and \$4,264 of direct expenses incurred in relation to closures and recoveries. Recoveries from security deposits and repayments from registrants totaled \$65,549, which reduced net claims to \$441,321. Non-registrant claims from the failures of end supplier airlines and cruise lines represent 16% of the claims paid.

Salaries and Benefits have decreased in 2012, due to a one-time cost for senior management retirement benefits charged in 2011.

Consumer and Registrant Awareness expense for 2012 is greater than 2011 by \$7,090. Expenses in this category include TICO's province wide Consumer Awareness Campaign, the cost of TICO's quarterly newsletter, TICO's website and the cost of participation at consumer trade shows. The increase relates to costs to implement a mobile version of TICO's website.

General and Office has decreased by 16% over the prior year. Part of the decrease is attributed to balance of the One Step Travel Review being expensed in the prior year. LAT hearings expense is also included in this category and there were fewer LAT hearings held in 2012 compared to the prior year. As well, TICO has tried to reduce costs where possible and was able to achieve some savings with general and office expenses.

Board Meeting Expense has increased by \$83,239 in 2012 over the prior year. This expense category includes the cost of TICO's AGM, Board of Directors remuneration and meeting expenses. The increase relates to increased costs for the AGM as an election was held for one board position in November 2011. In the prior year, there was not an election as the candidate won by acclamation. Additionally, expenses were increased as several Directors submitted expenses for prior years, which had not been previously accrued.

Government Oversight Fees expense was \$109,111 for 2012 compared to \$109,010 for 2011. These fees are paid to the Ministry under the terms of TICO's Administrative Agreement. The current Administrative Agreement was signed on August 1, 2005.

Computer Expenses have increased in 2012 as TICO upgraded its computer systems and the increased cost relates to the implementation of the upgrade.

Regulatory Reform and Education Standards expense includes expenses related to legislative review and the maintenance of education standards. CITC manages the exam process for TICO for the education standards. During the year, TICO recovered fees of approximately \$22,000 from CITC in accordance with the contract. In 2012, TICO completed a consumer study to determine whether consumers would be willing to pay for enhanced compensation fund coverage or whether it might deter them from dealing with TICO-registered agencies. The cost of this study of approximately \$18,000 has been included in this expense.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the Travel Industry Council of Ontario

We have audited the accompanying financial statements of the Travel Industry Council of Ontario, which comprise the statement of financial position as at March 31, 2012, and the statement of changes in net assets, statement of operations, and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Travel Industry Council of Ontario as at March 31, 2012, and their financial performance and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

TRAVEL INDUSTRY COUNCIL OF ONTARIO
NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED MARCH 31, 2012

1. NATURE OF OPERATIONS

The Travel Industry Council of Ontario (“TICO”) was incorporated on April 7, 1997 as a not-for-profit corporation without share capital, under the laws of Ontario. TICO is designated by the Lieutenant Governor in Council, as the Administrative Authority responsible for administration of the Ontario *Travel Industry Act, 2002* (the “Act”). TICO’s responsibilities are to carry out delegation of The Act in accordance with the Administrative Agreement and to achieve the Government of Ontario’s goal of maintaining a fair, safe and informed marketplace.

The Ontario Travel Industry Compensation Fund (the “Fund”) is a fund established under the Ontario *Travel Industry Act, 2002* and Ontario Regulation 26/05 to reimburse consumers for travel services when they have been paid to an Ontario registrant, the travel services have not been provided and the registrant is unable to refund their money by reason of bankruptcy or insolvency. The Fund also pays for certain repatriation related expenses. Under certain conditions, the Fund also pays claims resulting from the failure of cruiselines and airlines (end suppliers) to provide travel services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of TICO are in accordance with Canadian generally accepted accounting principles and their basis of application is consistent with that of the previous year, except as described below. Outlined below are those policies considered particularly significant.

Equipment and Amortization:

Equipment is stated at acquisition cost. Amortization is provided as follows:

Furniture and equipment	20% diminishing balance
Computer hardware	3 years straight-line

Computer software	2 years straight-line
Database	5 years straight-line
Vehicle	30% diminishing balance

Leasehold improvements are amortized on a straight-line basis over the remaining term of the lease, which expires November 30, 2018.

Revenue Recognition:

The deferral method of accounting for contributions is followed. The application of this method of accounting results in revenue in the form of semi-annual payments from registrants, as well as renewals and application fees from new registrants, being recorded when received. Interest income is recorded on an accrual basis.

Claims:

Claims are recorded at the time of approval by the Board of Directors. Standard claims must be made within six months after the registrant, or end supplier becomes bankrupt, insolvent or ceases to carry on business. Trip completion claims must be made within three months after the registrant failure.

Recoveries:

Amounts recoverable to offset claims paid, including commissions recoverable from registrants, are recorded when received.

Director Directed Trip Completion Costs:

Payments for trip completion under Section 69 of the Regulation are authorized solely by the Director under the Act and are recorded when paid.

Lease Inducement:

Lease inducement is amortized on a straight-line basis over the remaining term of the lease, which expires November 30, 2018.

TRAVEL INDUSTRY COUNCIL OF ONTARIO
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2012

Use of Estimates:

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those reported.

Investments:

Investments consist of fixed income notes bearing interest at rates ranging from 2.25% to 4.62% and with maturity dates ranging from three months to ten years from March 31, 2012. Investments are carried at market value.

Financial Instruments:

Financial assets and liabilities are initially recognized and subsequently measured based on their classification as “held-for-trading”, “available-for-sale” financial assets, “held-to-maturity”, “loans and receivables”, or “other” financial liabilities. Held-for-trading financial instruments are measured at their fair value with changes in fair value recognized in the statement of operations for the period. Available-for-sale financial assets are measured at their fair value and changes in fair value are included in the statement of changes in net assets until the asset is removed from the balance sheet or until any impairment is determined to be other than temporary. Held-to-maturity investments, loans and receivables and other financial liabilities are measured at amortized cost using the effective interest rate method.

TICO’s investments have been classified as held-for-trading. Accounts payable and accrued liabilities have been classified as other financial liabilities.

TICO classifies its fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The

fair value hierarchy has the following levels: (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1); (b) inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (Level 2); and (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Prior year figures:

Certain prior year figures have been reclassified to conform to the presentation adopted in the current year.

Future Accounting Changes:

The new standards are effective for year ends commencing on or after January 1, 2012 with early adoption permitted. TICO is currently assessing these alternate standards and expects to adopt ASPE

Salaries and benefits expense for 2012 includes \$11,000 (2011 - \$241,000) related to this obligation.

8. FINANCIAL INSTRUMENTS

Fair Value:

Canadian generally accepted accounting principles require that TICO disclose information about the fair value of its financial assets and liabilities. Fair value estimates are made at the balance sheet date, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

The carrying amounts for accounts payable and accrued liabilities on the

balance sheet approximate fair value because of the limited term of these instruments.

As at March 31, 2012, TICO's financial instruments that are carried at fair value, consisting of cash equivalents and investments, have been classified in the following levels:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
	\$	\$	\$
Cash equivalents	2,001,339	-	-
Investments	15,777,774	7,001,208	-

As at March 31, 2011, TICO's financial instruments that are carried at fair value, consisting of investments, have been classified in the following levels:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
	\$	\$	\$
Cash equivalents	1,847,915	-	-
Investments	15,976,085	7,479,006	-

Interest Rate Risk:

Interest rate risk arises from the possibility that changes in interest rates will affect the value of financial instruments. TICO has investments in financial instruments that include term deposits, short-term notes, bonds and debentures which are subject to interest rate risk. TICO does not hedge its exposure to interest rate risk as it considers such risk to be minimal.

Foreign Exchange Risk:

Foreign exchange risk is the risk that the market value of financial instruments and the associated revenues will fluctuate due to changes in exchange rates. TICO does not use derivatives to modify foreign exchange risk.

TRAVEL INDUSTRY COUNCIL OF ONTARIO
NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED MARCH 31, 2012

Market Risk:

Market risk is the risk that a change in market prices, interest rate levels, indices, liquidity and other market factors will result in losses. TICO is exposed to market risk as a result of its investments. TICO mitigates its market risk exposure through controls to limit concentration levels.

9. CAPITAL DISCLOSURES

TICO's capital is comprised of its net assets. TICO's objective in managing its capital is to remain a sustainable operation while fulfilling its overall mandate (Note 1). TICO achieves this objective by strong day-to-day management of its cash flows, and by regularly monitoring revenues and expenditures against its operating budget. See also Note 4.

Section 72(2) of Ontario Regulation 26/05 provides that TICO may, from time to time, invest any money of the Fund that is surplus to its immediate requirements in property in which a trustee is authorized to invest, in accordance with the Trustee Act.

The TICO Board adopted the following policy with respect to investing surplus funds of TICO:

A minimum of \$2,000,000 of such surplus funds will be invested in qualifying investments that mature within one year. The remainder of the surplus funds not invested in short-term investments will be invested in qualifying investments, which will be laddered in approximately equal proportions with maturities ranging between 2 and 10 years.

Business Plan

April 1, 2012 – March 31, 2015

In assuming the delegation from the Ontario Government for administering the *Travel Industry Act, 2002*, which governs approximately 2,500 travel retailers and wholesalers registered in Ontario, TICO established an initial agenda not just to administer its delegated responsibilities in the public interest, but also to elevate the travel industry to new levels in consumer protection, professional standards and regulatory compliance. TICO's mission, vision and values will serve as guiding principles to staff and Board members and against which all initiatives will be measured.

The 15th year Business Plan which follows outlines:

- The specific objectives, actions and performance measures for accomplishing the agenda in an ongoing three-year planning period.
- The operating environment established to support it.

Business Objectives

Environment

It looks like 2012 is shaping up to be another challenging year in the travel industry. There are a number of global and regional influences, which have the power to impact the state of the industry. Concerns about government debt in the United States and Europe, volatile stock markets and worries about recession weigh heavily on the minds of travel business owners and executives. How will these economic factors impact consumer confidence? Will banks be less willing to lend money due to a potential credit crunch? Adding to the concerns are new fears about oil price increases. Then, when you add weather events, natural disasters, civil and political unrest - travel businesses are constantly required to readjust their business forecasts to account for new developments. In addition to dealing with the events themselves, the media coverage of those events can have a significant influence on the ultimate outcome.

This is not an easy industry. Even finding staff can be challenging. It has been stated that there is a “recruitment crisis” as new agents are needed to replace a rapidly aging workforce. Further, the way that travel is sold is constantly evolving as new technology alters the landscape. Currently, the increasing use of social media and mobile devices is having an impact on the business. Competition within the industry is fierce. Consumers are demanding - they want great products, exceptional service and low prices. Further, they want to be protected and compensated should anything go wrong.

At TICO, trying to keep up with all the changes in the industry to ensure that consumers are protected is a challenge as well. TICO has concerns regarding whether the provincial Compensation Fund is adequate to protect the public. While TICO wants to enhance the protection offered by the Compensation Fund to ensure that consumers are protected, it must consider the

costs involved and whether the industry and the travelling public can absorb those costs. TICO is working in partnership with the Ministry of Consumer Services to determine whether enhancements to the Regulation would be desirable to further consumer protection. Both TICO and the Ministry must carefully consider the implications for all stakeholders.

Since Ontario is one of only three provinces in Canada that has specific travel legislation, TICO must consider how any rules that the government puts in place will impact registrants. TICO is always mindful of the fact that registrants are competing with travel service providers operating in other jurisdictions who may not be subject to the same requirements. TICO is constantly striving to balance the need to protect consumers without unduly burdening and restricting business. Over the next year, TICO in partnership with the Ministry will be continuing to look at where enhancements may be needed to the *Travel Industry Act, 2002* and Ontario Regulation 26/05 to

ensure that any gaps in consumer protection as a result of new developments in the industry, new technologies or changes to the business model of how travel services are being sold, are addressed. It is a challenge.

On the plus side, while our jobs may be challenging, living in a world where there is a constant feeling of crisis makes one need a vacation, which is one reason the travel business should always endure. When people book their vacations, we want them to do so through a TICO registered travel agency. Another objective of TICO this year will be to get registrants more involved in TICO's Consumer Awareness Campaign. The goal of the campaign is to make consumers aware about TICO and the benefits of dealing with TICO registered travel agents. We believe that our registrants provide a tremendous value to their clients. Working together, we want to ensure that everyone else knows that as well.

STRATEGIC PRIORITIES

As a result of the changing environment in the industry, the TICO Board of Directors has set the following strategic priorities for the future. The Board considered short term, medium term and long range goals. The Business Objectives that TICO will focus on in this 3-year Business Plan are listed below.
